

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Monitoring Requirements Not Met for The City of Throckmorton

Our system failed to collect every required coliform sample. Although this incident was not an emergency, as our customers, you have a right to know what happened and what we did/are doing to correct this situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During April 1, 2019-April 30, 2019 we did not monitor or test or did not complete all monitoring or testing for coliform bacteria and therefore cannot be sure of the quality of your drinking water during that time.

What should I do?

There is nothing you need to do at this time. You may continue to drink the water. If a situation arises where the water is no longer safe to drink, we are required to notify you within 24 hours.

What is being done?

We collected every required coliform sample in May in May, June, and July 2019 and are no longer in violation.

For more information, please contact the City of Throckmorton at (940) 849-4411 or come into City Hall located at 116 N. Minter Ave Throckmorton, Tx 76483.
